

— CORPORATE CATALOGUE

Production and project support for festive illumination

Creative fabrication, wildlife collections, garden experiences, refurbishment and flexible European production capacity.

MAISHI ILLUMINATION

Zigong, China • Europe

WHO WE ARE

A production partner built for demanding seasonal programmes.

MAISHI ILLUMINATION is a China-based creative production and project support company specialising in large-scale illuminated structures and decorative installations.

10,000+

illuminated decorations produced or refurbished for European clients

5 YEARS

working with European partners

From Zigong craftsmanship to European project sites.

EUROPEAN PRODUCTION EXPERIENCE

Three environments. One production language.

01 Zoos & Wildlife

Species-aware animal forms and destination collections.

02 Gardens & Light Parks

Botanical scenes and immersive seasonal experiences.

03 Festive Illumination

Seasonal landmarks, motifs and commercial décor.

Zoo and wildlife collections

Expressive animal lanterns that retain character in daylight and deliver atmosphere after dark.

**Built for visitor-
facing detail**

Proportion
Expression
Hand-painted finish

Garden and light park collections

Coordinated collections

Botanical forms, wildlife characters and thematic scenic pieces can be produced as a coherent visual family for gardens, parks and destination trails.

— FESTIVE ILLUMINATION

Seasonal landmarks and destination décor

Custom motifs, large centrepieces and themed collections produced for cities, shopping centres, winter trails and visitor destinations.

Custom themes

Large-format impact

Creative fabrication

SCULPTURAL MODELLING

Character, proportion and large-scale form.

COVERING & SURFACE

Precise textile work and shaped finishes.

ARTISTIC FINISHING

Colour, texture and hand-painted detail.

Metalwork and lighting integration

01

Steel & aluminium structures

Frames engineered around scale, transport and installation requirements.

02

TIG and MIG welding

Experienced fabrication support for custom illuminated structures.

03

Lighting integration

LED layout, cable routing, access and repairability considered during production.

Refurbishment and reproduction

Extend the useful life of established collections while keeping their original design language and operational purpose.

- Structural inspection and repair
- Lighting replacement and cable renewal
- Re-covering and artistic refinishing
- Faithful reproduction of missing pieces

Seasonal production and on-site support

Flexible skilled teams that add capacity during production peaks, refurbishment programmes and special projects in Europe.
